PROFILE

SAP ABAP Trainee with hands-on experience in ALV reporting (Classic and OOP), Smartforms, dynamic screen/subscreen programming, and HTML-based reporting on SAP 4.7 IDES, trained through the Advanced ABAP Bootcamp at SAP Interface Community. Background in frontend development and 8+ years in digital product design across telecommunications, fintech, logistics, e-commerce, and healthcare, which shapes how I analyze requirements and translate functional specifications into structured technical solutions. Seeking a long-term career in SAP ABAP development and technical consulting.

SAP & TECHNICAL SKILLS

SAP / ABAP	ALV Programming (Classic ALV, OOP ALV / cl_gui_alv_grid), Smartforms & SmartStyles, dynamic screen/subscreen programming, HTML report rendering (cl_gui_html_viewer), SAP Dictionary (SE11), Screen Painter (SE51), SAP master data vs. transactional data fundamentals
Programming	Programming logic, algorithms, Python fundamentals, variables, operators, conditions, basic data handling
Frontend	HTML5, CSS3, JavaScript, PHP, Bootstrap (custom), PSD-to-HTML slicing
Analysis	Requirements analysis, process mapping, problem solving, system thinking, technical documentation
Tools	SAP GUI, SE11, SE51, SE41, SE80, Figma, Framer

SAP TRAINING

Advanced ABAP Bootcamp | SAP Interface Community 2026 – Present

- Hands-on training in ALV reporting (Classic via REUSE_ALV_GRID_DISPLAY, OOP via cl_gui_alv_grid), Smartforms output design, and dynamic screen/subscreen architecture.
- Practicing SAP Dictionary (SE11), Screen Painter (SE51), and Object Navigator (SE80) across end-to-end report and form development.
- Following an FSD (Functional Specification Document)-based workflow, from requirements analysis to technical build.

ABAP Basic Knowledge | SAP Interface Community [June-July 2026]

- Completed ABAP Basic Knowledge training; received a Training Attendance Certificate (ref. ABB05032026).
- Built foundations in ABAP programming concepts, programming logic, and SAP data and business-process concepts.

SELECTED SAP LEARNING PROJECTS (BOOTCAMP)

Delivery Note (Surat Jalan) ALV & Smartform Report

SD Module | ALV Grid + Smartform | LIKP / LIPS

- Building a delivery note report from a client-style FSD, retrieving and structuring SD delivery header and item data (SELECT with FOR ALL ENTRIES, lookup FORM routines).

QM Inspection Lot Advanced ALV Report

QM Module | OOP ALV (cl_gui_alv_grid) | Header-Detail Interactivity

- Building an object-oriented ALV report for QM inspection lot data with a header-detail structure, dynamic subscreen switching, and expand/collapse logic.

HTML Report Conversion (MTTR / MTBR)

PM Module | cl_gui_html_viewer | Based on Transaction MCJB

- Converting a standard PM analysis report (MCJB) into an HTML-rendered report with cl_gui_html_viewer, flattening hierarchical source data into a single table with pagination logic.

PROFESSIONAL EXPERIENCE

UI/UX Designer / UI Engineer Consultant (Freelance) | PT Minda 2026

- Built design system tokens and responsive UI specifications in Figma and front-end code; ran implementation QA and developer handoff for a product website redesign.

UI/UX Designer | Aleph Labs, Jakarta Apr 2022 – Apr 2025

- Owned end-to-end product design for by.U (Telkomsel), Indonesia's first fully digital telco product. Homepage revamp increased CTR by 1,094%.
- Migrated the design system from Sketch to Figma (components, variables/tokens, documentation). Built design system foundations for Pegadaian Digital.
- Translated regulated and complex workflows (digital pawn services, U by Prodia patient/doctor dashboards, role-based access to health data) into structured product flows.

UI/UX Designer | Titippaket.com, Jakarta Jan 2021 – Feb 2022

- Designed onboarding, shipment tracking, and checkout flows; usability testing reduced checkout drop-off.

UI/UX Designer Specialist | PT Smartfren Telecom, Jakarta Feb 2017 – Jan 2021

- Designed enterprise application UI and translated designs into responsive HTML, CSS, and JavaScript, working with developers to close design-implementation gaps.

Motion Designer & UI Designer (Freelance) | Bandung 2014 – 2017

- UI, web, and motion work for telecommunications, fashion, pharmaceutical, and e-commerce clients, including PT Telkom Indonesia.

Frontend Developer | YPT (Yayasan Pendidikan Telkom 2014

- Sliced Photoshop designs into HTML5 and CSS using custom Bootstrap.

Frontend Developer | Glovory LLC 2014

- Converted Photoshop designs into HTML5 and CSS using custom Bootstrap.

Web Designer & Front-end | Newbee Corp, Bandungul 2013 – Feb 2014

- Translated PSD mockups into responsive HTML, CSS, and JavaScript for startup applications.

EDUCATION

Institut Teknologi Bandung | D4 Computer Software & Media Applications (TKJMD)2014 – 2016

Institut Teknologi Telkom (Telkom University) | D3 Informatics Engineering2010 – 2013
